PROJECTS

[PTENOTE - website redesign](#)

Nov 2025 - Mar 2026

Redesigned and developed the PTENote landing page by creating the base layout in Figma and refining the design iteratively during development. Implemented the final responsive interface using HTML, Tailwind CSS, and JavaScript with a focus on clean UX, visual hierarchy, and performance.

[DETNOTE - duolingo english test exam booking site](#)

[↗](#)

Sep 2025 - Oct 2025

Designed DetNote, a website created from scratch with the complete UI crafted in Figma, focusing on clean user experience, responsive layout planning, and strong visual hierarchy.

[Portfolio website](#)

Oct 2025

A personal portfolio showcasing my work as a Front-end Developer & UI/UX Designer. Built with React, Tailwind CSS, HTML, CSS, and JavaScript, it highlights my projects, skills, and services. The site features a responsive design, project showcases, and contact options—serving as a professional hub to connect with clients and recruiters.

[Dashboard - score overview](#)

Sep 2025

Designed a dashboard UI in Figma that provides an overview of user scores and available actions, focusing on clear information hierarchy, usability, and intuitive navigation.

[Homepage clone of website \(Ultraedit\) ↗](#)

Feb 2025

Its a clone of homepage of a website Ultraedit

it is made with using HTML , CSS .

It consist all the visual elements similar as the original site.
